Self Watering Planters

Krupex Self Watering Planter is designed to give a convenient plant care. It has a reservoir which holds water. The divider disk allows water to be in continuous contact with the soil/medium through its slits. Soil absorbs water via capillary action and the plant gets water as and when required

For Indoor & Outdoor

Happy & Healthy Plants
Plants take water from reservoir as and when required.

Easy Plant Care & Worry Free Vacation
Greena planters of its own take care of the aquatic needs of your plants even in your absence.

Planter Water Level Indicator
This indicator shows the level of water remaining in the reservoir. This helps you to decide when to water your plant.

No to Mosquito Breeding
Since the bottom tray is not required, there is no

Seepage & Stain Free
No more seepage in your room or on your building walls due to over watering.

Plug Feature

For Indoor - Insert the plug for no-seepage

For Outdoor

Remove the plug to drain out the excess water or rain water.
